THREE SERVICES, CHOOSE WHAT YOU NEED

One platform. Three ways to grow your business.

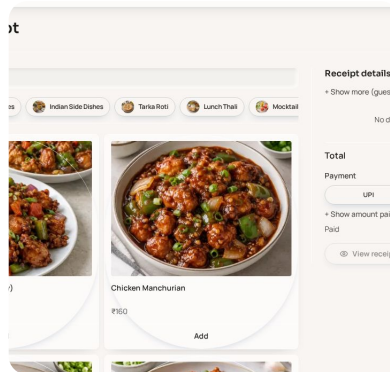

QR Menu • Full service

For restaurants, cafés, bakeries, hotels and dhabas.

- Photo menu on the guest's phone
- QR table ordering and room ordering
- Live order board and kitchen screen
- Combined final bill and UPI QR
- Reservations, tables and staff alerts

From ₹999 / month

POS • Counter billing

For shops that bill at the counter — no public menu.

- Fast manual receipts and GST
- Stock with auto-decrease on sale
- Khata (customer credit) book
- Voice billing in Hindi and English
- 58mm thermal printing

From ₹699.30 / month

Google Reviews • qrgrow

For any local business that wants more Google reviews.

- Branded review page and QR poster
- Instant review suggestions by star
- Business profile page and photos
- Digital QR cards (12 card types)
- Review and rating statistics

From ₹499 / month

USE ONE SERVICE OR COMBINE THEM

- **One login**
Owner, manager and staff accounts for each shop, with roles and a PIN lock on settings.
- **Works everywhere**
Any phone, tablet or computer browser. Guests never install an app.
- **Setup in a day**
Five-step guided setup; scan your paper menu or search your business on Maps.
- **Local support**
Call or WhatsApp the qrmflow team on +91 60005 95825.

GUEST JOURNEY

Scan. Order. Serve. Pay.

Every step happens on the guest's own phone. Your team only cooks, serves and confirms payment.

01**Scan**

Guest scans the QR stand with any phone camera. The menu opens instantly — no app, no login.

02**Order**

Browse categories, dish photos, veg / non-veg marks and offers. Add dishes and place the order.

03**Serve**

Order appears live on the dashboard and kitchen screen with sound and Hindi voice alerts.

04**Pay**

Final bill shows a UPI QR with the exact amount. Staff confirms payment and the receipt prints.

SMART CHECKS BUILT IN

Location check

Guest location is matched with the shop location, so orders come only from people actually inside.

Table and guest detection

One shared QR per shop; the guest picks their table. Same phone number on the same table joins one bill.

Language and currency

Menu can be read in Hindi and many world languages, with clear prices.

Live order tracking

My Orders shows each order's status and dish photos, refreshing automatically.

Staff service requests

Guests can call a waiter, ask for water or the bill from the menu.

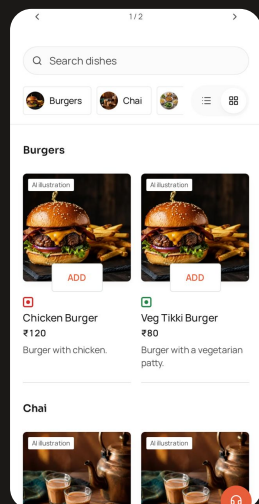

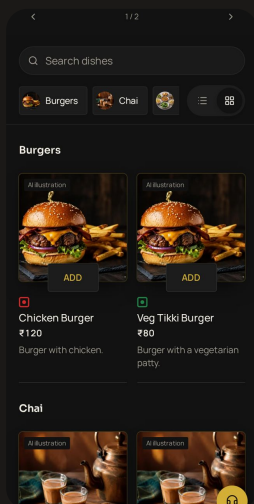

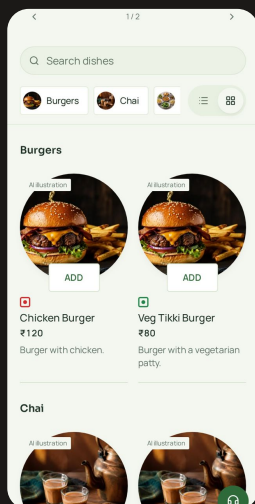

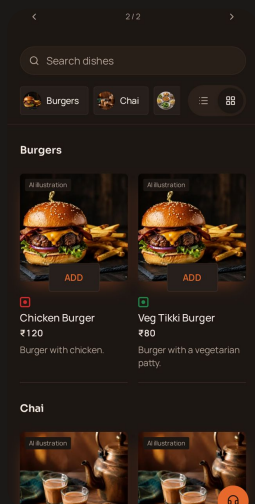

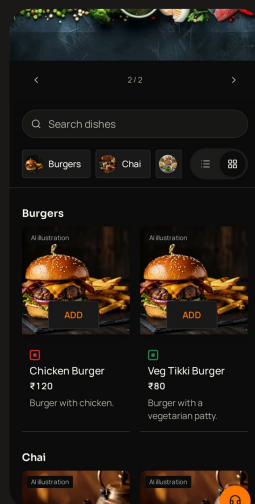

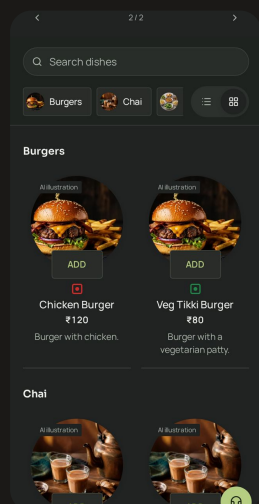

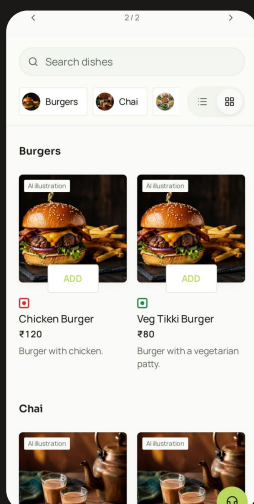

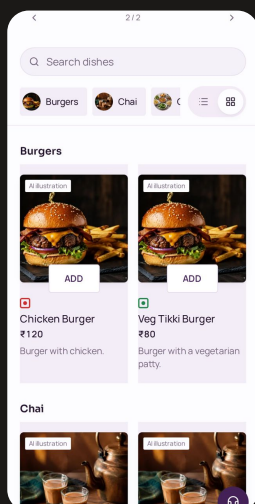

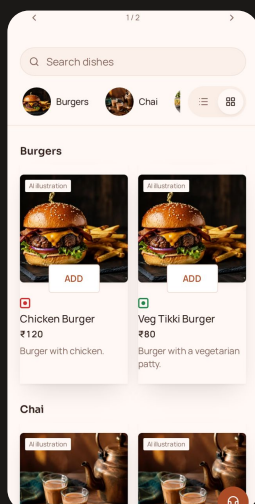

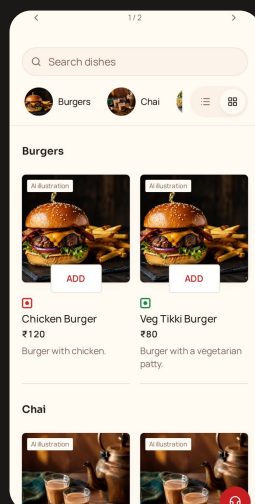

Saved customer details

Live location, address and phone come with delivery orders for the owner.

PROFESSIONAL MENU LOOKS

Your brand, your colours — on every guest phone.

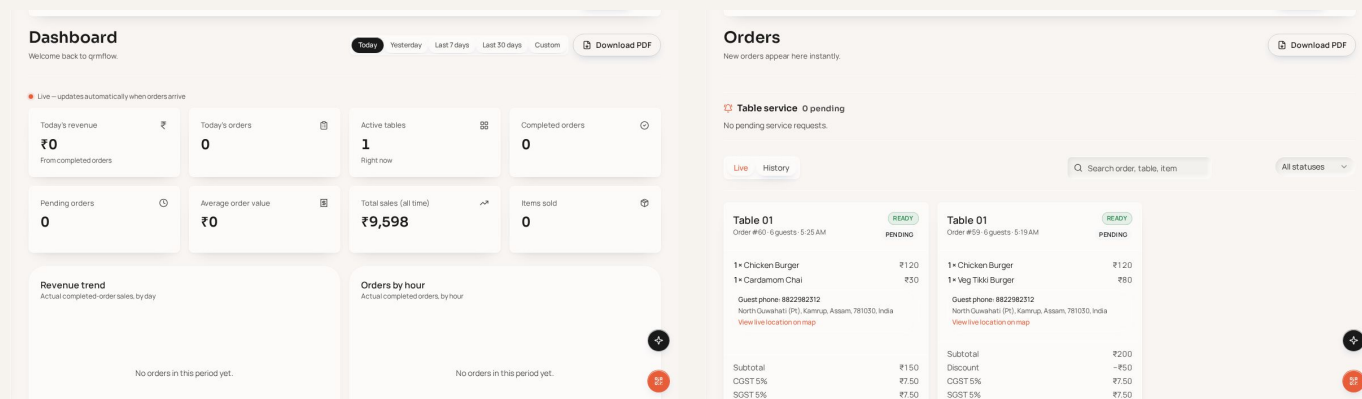

Pick a style in Settings. Your logo, dishes and prices stay the same; only the look changes.

**Classic White****Midnight Noir****Fresh Garden****Spice Ember****Crispy Kitchen****Carbon Grill****Lime Market****Violet Table****Scarlet Kitchen****Amber Lounge**

Plus a Minimalism mode, works on every phone size, and guests may switch between light and dark looks.

RUN THE WHOLE SHOP FROM ONE SCREEN

Everything the owner and staff need, A to Z.

● Dashboard

Today's orders, sales and live activity. Empty states when there is no data — never fake numbers.

● Menu photo scan

Take a photo of a paper menu — dishes and prices are read and you review before saving.

● Reservations

90-minute booking slots with table locks so double bookings cannot happen.

● Reports and PDF

Item-wise, table-wise, category and GST reports — every list downloadable as PDF.

● Live orders

Accept, prepare, serve and complete. Same phone orders group into one card and one bill.

● Free photo library

Matching category and dish photos without spending AI credits; your uploads are kept.

● Combined final bill

All orders of the same table and phone merge into one professional bill.

● Settings PIN lock

Four-digit PIN protects settings from staff, with lockout after wrong tries.

● Kitchen screen

Accepted orders arrive live; kitchen ticket can print automatically.

● Menu manager

Categories, dishes, prices, photos, veg marks and sold-out switch in seconds.

● Tables and rooms

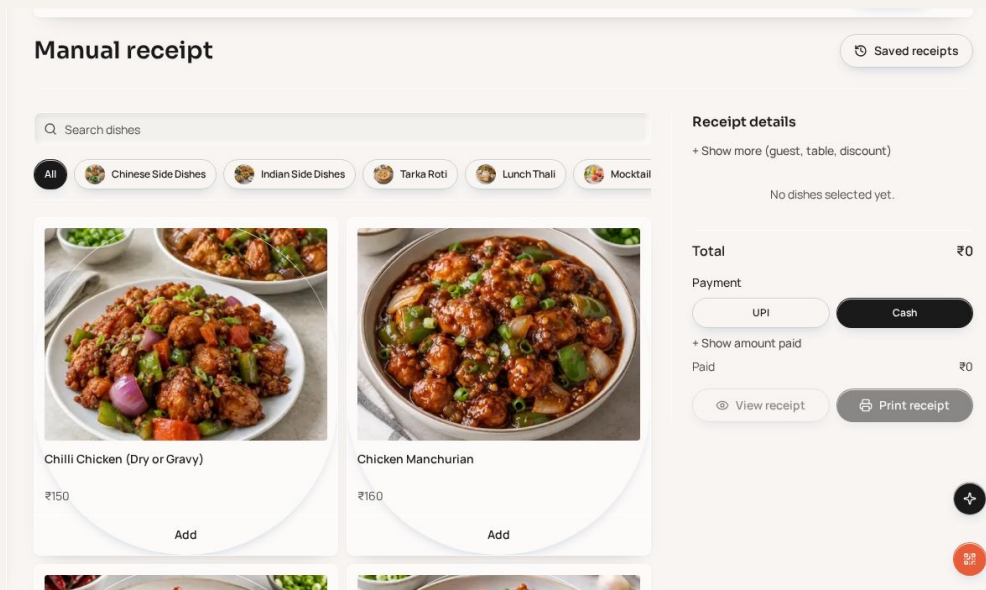

Bulk create tables; rooms and cabins for hotels; one shared stable QR link.

● UPI payments

Bill and receipt show a UPI QR with the exact amount. Paid only after staff confirms.

POS-ONLY SERVICE · 30% LOWER PRICE

Fast counter billing with stock, Khata and voice.

- **Manual receipt in seconds**

Tap item cards, change quantity, print. Hold an item to remove it from this receipt only.

- **Voice billing**

Speak in Hindi or English to add items and stock — no AI cost per bill.

- **58mm thermal printing**

Bluetooth / USB thermal printers, with an honest preview fallback.

- **GST billing**

GST settings on every invoice, with GST reports for your accountant.

- **Khata book**

Customer credit with UPI statements, PDF reports and contact import.

- **Receipt history and reprint**

Every receipt is saved first, so reprints never create duplicates.

- **Stock management**

Fast bulk stock entry; each sale reduces stock automatically and shows out-of-stock.

- **Pharmacy mode**

Medicine names and strengths, generic references, no brand guessing.

- **Premium invoice styles**

Professional receipt designs with your logo (Professional and Business).

NEVER MISS AN ORDER

Your shop talks to you — and to your customers.

- **Hindi voice alerts**

New orders are announced aloud on phone or tablet, even with the screen locked (opt-in keep-alive).

- **Worldwide languages**

Every page can be shown in Hindi and many global languages with flag icons.

- **Maya voice assistant**

Owners can ask the admin assistant to find data and do confirmed tasks by voice.

- **Background push notifications**

Separate tones and volumes for orders, service calls and payments.

- **WhatsApp messages**

Connect your WhatsApp by scanning a QR. Order updates, menu link, invoice PDF and review link are sent automatically.

- **Printer test app**

Android helper app for testing direct thermal printing.

- **Staff app icon**

Each shop gets its own round app icon made from its logo.

- **Khata reminders**

Customer credit reminders on WhatsApp with approved templates.

- **International prices**

Plan prices shown in the visitor's currency; India pays in INR.

MORE GOOGLE REVIEWS, LESS EFFORT

A beautiful review page for every customer.

Customer scans your review QR, taps a star, picks or edits a suggestion and taps Submit. The review is copied and your real Google review page opens to paste and post.

Powered by qrmflow

Your Business

How was your experience?

★★★★★

Had an outstanding visit here. The space was spotless and nicely maintained. I will definitely be back soon.

Write your review in your own words...

Submit Review

Suggestions are a starting point — edit them.

- **Instant suggestions by star**

60+ ready suggestions per rating appear the moment a star is tapped; a phone never sees the same one twice.

- **Voice and own words**

Speak in Hindi or English, or type a few words and AI turns them into a full professional review.

- **One-tap submit**

The final text is copied and the real Google review page opens with rating and text.

- **Branded review QR poster**

Print-ready stand poster with your logo, Google heading and gold QR frame.

- **Business profile page**

Logo, cover, address, Call and Directions, photos, social links, About and reviews.

- **Maps auto-fill**

Search your business name or paste a Maps link — name, phone, address and photos fill in.

- **10 profile themes**

Admin-set themes for the profile page; premium themes on Growth and Business.

- **Your own domain**

Connect your own domain to your QR Menu or review page.

- **Review statistics**

Total reviews, rating breakdown and reply coverage from saved data.

- **12 QR card types**

Hotels & Restaurants, Google Reviews, E-Card, Doctor's E-Card, Packaging, Events, Academy, Stationery, Website, Text, Short Links, Social.

ADVANTAGES

Why shops switch to qrmflow.

01 Fewer order mistakes

Guests choose exactly what they want; nothing is lost between table and kitchen.

03 Higher bills

Dish photos and offers on the menu help guests add more.

05 Clear daily sales

Know what sells, per item, per table and per day.

07 Secure by design

Every shop's data is separate; guests only see what they need; payments are confirmed by staff.

09 Made for India

Hindi voice, UPI QR, GST bills, Khata and WhatsApp built in.

11 Quick setup

Five-step setup; scan a paper menu and go live the same day.

02 Faster table turns

No waiting for a waiter to take the order or bring the bill.

04 Instant menu updates

Change a price or mark a dish sold out in seconds — no reprinting.

06 No hardware lock-in

Works on the phones, tablets and PCs you already have.

08 More Google reviews

Happy guests get a simple, beautiful way to leave a review.

10 Honest numbers

Dashboards show real data only — empty states instead of fake stats.

12 Real support

Phone and WhatsApp support from the qrmflow team.

QR MENU · FULL SERVICE PLANS
